## SOVEREIGNS

# Mutual Relief Fund.

As the object of this order is for the material as well as the moral and social welfare of its members, in life, the order of the

### SOVEREIGNS OF INDUSTRY

have, after careful consideration, decided to provide for the relief of the widows and orphans, after the death of their protector and provider. We deem it to be one of the first duties of man to provide while he is in life for his helpless ones, (when his strong arms and active brain are laid in the earth.)

And as this order was instituted to free the working man, and those of small means from monopolies of all kinds, we know of none more grasping, than the great life insurance companies, who either pile up millions of dollars, or fail to pay their victims. The poor cannot pay the enormous charges for insurance and must let themselves go uninsured.

The great orders of Masons, Odd Fellows, Knights of Pythias, and Sons of Temperance, Railroad Conductors, Engineers and Workmen all have their life assurance associations, and there is not an instance of their accumulating wealth, or failing to pay the heirs, without law suits. Believing this plan of relief to our brothers'

heirs is part of our duty, we have adopted mutual life benefits, which, if adopted by other councils so as to unite with ours, we shall be enabled to give the widow a home and means of support without much expense to the husband while living.

The call being now and then but for a mere trifle compared with the demands of a company, the members will not feel it, and they can limit their payments to their own council, or extend it to as many as they can—no salaries, no rents, no agents' fees, no lawyers' bills absorb the fund, but all goes to those who will need it in their day of desolation.

The amount of funeral benefit paid by a lodge is trifling compared with that paid by the Beneficial Associations in some localities, and it is a duty that all members of Order owe to their families to become members of any such Association that they are entitled to join, by the payment of such moderate sums as are required for admission and assessments.

Many have remarked that they "must join that Association, as it is a good thing," but await a more convenient opportunity. To such we would say, "Now is the accepted time;" "put not off till to-morrow what ought to be done to-day." You are in good health to-day, and you are eligible; to-morrow you may be taken sick, and it will be too late.

#### TO OUR SISTER MEMBERS.

We earnestly appeal to you all to join in this noble work. Your assessment will not be over twenty dollars a year, on two thousand members (or dollars;) this can be left in case of death to your mother, husband, sisters, children, or any one you please. There will never be so cheap a plan offered you again. Mutual Relief is one of the most important purposes in our affiliation. Next to the daily requirement of the true man and woman, they should have in view the future needs of the helpless ones about them; and no better method offers itself than some safe and economical system of Relief.

We present such a system in the SOVEREIGNS MUTUAL RELIEF ASSOCIATION, and we commend the Rules and Regulations herewith submitted to the careful consideration of every Sovereign.

Article Six defines the manner in which benefits are derived. The membership can be limited to two thousand, so that it can never become a heavy tax on even the oldest among us.

The plan it will be seen is very simple and easily comprehended.

The advantage it possesses over every other system of insurance is obvious.

1st. It is certain the Association cannot fail for it will always be practically in funds.

2d. It is the cheapest system that can be devised. By way of illustration, let the reader look at the expenses of Insurance by the usual mode:

In an ordinary Life Insurance Company, an insurance of \$2000 00 upon the usual life plan at the age of 25 will cost \$40.00, 30 years \$46.00, 35 years \$54.00, 40 years \$60.00, 45 years \$76.00, 50 years \$92.00, 55 years \$114.00, 60 years \$146.00, 65 years \$200.00.

Now the average number of deaths according to the tables of mortality is about seven per thousand annually of insured lives, so that in two thousand the number would be fourteen, and you will thus have an Insurance on an average more than five times as cheap as in any ordinary Company.

3d. It is strictly mutual, every member having a voice in the management of the Association, and the funds are the property of all. Every member retains his own premium and acts as his own Treasurer, only paying out the amount which actually goes to the widow or others entitled to it, as per article 5, when called on upon the death of a member, and not having to advance a large sum at the beginning of each year for the purpose of accumulating thousands and millions of dollars to be held in trust by strangers and paid for high salaries, etc., and no account rendered to you of their stewardship.

The accompanying constitution was adopted on the evening of March 8th, 1875, at Memorial Hall, Cambridgeport, by delegates from Councils.

The arguments of all Life Insurance Companies, is that we must pay enormous premiums to make them sound.— We would ask our readers if the New York Equitable Society ever expects to *sell* the enormous buildings erected in New York, Philadelphia, Boston, Providence, and other cities, (out of their members' premiums) to pay their policy holders? We allow our members to keep their money until the last moment.

The large Companies pile up the millions of dollars in marble and stone, never to be released, while our Association is but in the sound hearts of our certificate members. Not one of the Benevolent Relief Associations have ever failed, or ever refused to pay the heirs; for they have no capital that fails, and no right to refuse to pay. Columns and volumes have been written in favor of securing the widow and orphans from want and woe by the companies, and we make no war upon them.

Only, we say, hands off; we relieve without expense, within forty-eight hours, without law suits.

#### THE ASSOCIATION PHYSICIAN'S CERTIFICATE.

As it becomes absolutely necessary to have each applicant examined by a competent physician, so that the well members shall be protected, an Association as large as this, will, and must, use proper care in admitting applicants. Many persons have chronic diseases that do not show any outward sign, and some are not really aware that they are so diseased. Consumption of the Lungs, Bright's disease of the Kidneys, Heart Disease, Brain Disease, Liver Complaint, Rheumatism, Spleen Disease, Stomach and Bowel diseases, are all in the body, and show no outward sign that could be detected by any one except on examination, and *many persons do not know that they have within them the sure and certain cause of death, if not cured, and would apply with the full assurance that they were well.* Consumption, Bright's disease of the Kidneys, and many other fatal complaints, do not alarm the victim

until too late, and the rule that all applicants must be examined, will save, in our judgment, many precious lives, and the Association many thousands of dollars. We have no right to ask or make the perfectly well, assure the sick; dissatisfaction would soon ensue and cause a dissolution of the Association. In all incorporated Life Insurance Companies, one or more regular physicians receive large salaries to attend their offices and examine the applicants; and if rejected, no explanation of the cause of the rejection is ever given.

The officers of the Association have made a contract with a regular physician to examine all applicants, and he will, if he reports unfavorably against the applicants, give them the reason why, and the nature of *their disease*.

The well need not fear an examination, and the diseased, if not aware of their complaint, ought to know it.

The examining fee is fixed at the very low rate of *one dollar, payable in advance*. The doctor will receive applicants at his residence, day and evening, and on application from any Directors of a Council in the District, will visit it and examine the applicants in the ante rooms or some suitable place. Where persons cannot visit the doctor, or have him call on them, the medical Blanks will be sent them and they can be examined by any regular physician in good standing, which certificate will be received.

All Sovereigns over sixteen and under sixty-five years of age, in good health, within ten miles of Boston, have a right to join this Association. ●

Address all communications to the Secretary for circulars blanks, constitution, and information.

The above statement was taken from a good sound Co.; but if the reader will glance at the amounts received and paid to the policy holders, (exclusive of dividends which are not paid in cash,) they will see that the members only get back less than one-quarter of the amounts paid in.

The enormous expenses of nearly \$7,000,000.00, and the accumulation of \$27,734,062.02 shows the whole story.

*It will cost our Association* to collect and give to the heirs their money, just the postage cards and printing, with a small salary for the Secretary, all of which will be paid out of the interest upon the installment fees.

# RECOLLECT

That this is the only Relief Association in which the mother can leave money for her children, that the child can for its mother, that the wife can for her husband, or any other person. We take in all without regard to sex, color, grade or religion, *and that the cost of a two thousand dollar certificate will be less than \$20 a year.*

## WHEN TO JOIN US.

---

“Procrastination is the thief of time.”

The renewal of the fire policy expiring to-day is delayed until to-morrow. Fire, like death, comes without delay; the fortune of many years' labor is destroyed in a moment; the hopes of a rich man and his family are fatally blighted.

“I am well to-day?” The very reason why you should haste “to be examined” to-day. Death-bringing diseases, as well as accidents, constantly threaten us. Both health and life are essential to making the best insurance. Forefend the danger while you may. Shield at once those you love from the avertible consequences of the dread uncertainty that is over us all.

“When?” When any person or thing pecuniarily depends upon your *life* insure that *life*. Wisely resolved, put your resolution into action before night-fall. “We know not what a day may bring forth.” When a wife appreciates having the “bread winner's” life protected by others for her children's sake, let nothing interfere; each moment is a risk, and let the periods for paying premiums be, by no possibility, forgotten.
